**Attachments:** Response to OGC and OECA comments on the Oak Ridge EMDF ROD revised 10.29.21.docx

Ramon,

Attached is the revised version. I accepted the changes we went thru this morning before the ORC call and I added a sentence stating the CWA default exposure assumptions result in an 8x higher value than our risk-based calculated values. Hopefully that will address one of Carlton's questions. This version may be good to share with John, Carol, and Leif before our Monday call with HQ and/or with the invite list for that Monday meeting.

Have a good weekend. I'll be out of pocket from 11am-2pm but call or text me if you need me.

Thanks,  
Glenn

Tomorrow is my CDO and I have a funeral to attend that I have to leave by 10am for but I could do 9am tomorrow. I have an EIT meeting that starts at 3pm but could leave it early if 4pm works for ya. I have a PARS review at 5pm but can move it if I need to.  
Glenn

**Subject:** Instream WQ Values calculation discussion with R4 ORC

Hi All,

Leif called me and asked me if we can meet to discuss the instream WQ calculation with them before our meeting with OGC and OECA next Monday. Please let me know your availability for tomorrow, I know Randall is off tomorrow.

Thanks,

***Ramon Torres,***
